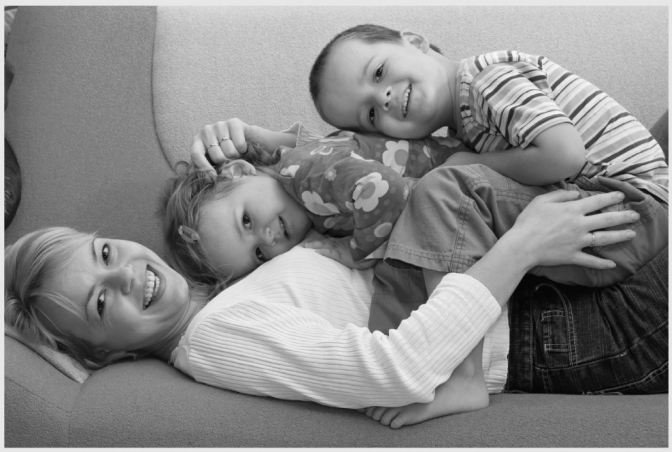
Sitting around

START a babysitting cooperative!

www.**sittingaround**.com

Babysitting coops are groups of neighbors who trade babysitting. You watch my kids when I go out, I watch your kids when you go out.



Why start a coop?

- ***Easy to find sitters*** when you have a large pool of other parents.
- Parents you know and trust provide the ***best possible care*** for your kids.
- ***Build community*** with families in your neighborhood.
- Instead of a sitter, it's a play date. ***Fun for the kids and less work for the parents.***
- ***Save money,*** about $500 per family per year, ***while going out more often.***

Starting a coop takes less than 15 minutes. Invite 3 friends, and you can be trading sitting this weekend.
