

# Sitting around

## START a babysitting cooperative!

[www.sittingaround.com](http://www.sittingaround.com)

Babysitting coops are groups of neighbors who trade babysitting. You watch my kids when I go out, I watch your kids when you go out.

## Why start a coop?

- **Easy to find sitters** when you have a large pool of other parents.
- Parents you know and trust provide the **best possible care** for your kids.
- **Build community** with families in your neighborhood.
- Instead of a sitter, it's a play date. **Fun for the kids and less work for the parents.**
- **Save money**, about \$500 per family per year, **while going out more often.**

Starting a coop takes less than 15 minutes. Invite 3 friends, and you can be trading sitting this weekend.
